Subject: Philpott 216 Study: Meeting of the Natural and RecreationResources Sub-Group
Date: Tuesday, October 16, 2007 5:05:31 PM

Greeting sub-committee members! It's time we got started on our part of the Philpott 216 study. Kevin McDaniels and I (the co-chairs of this sub-group) have scheduled a meeting for Monday afternoon, November 5th at 1:00 PM at the Philpott Reservoir Visitors Assistance Center Conference Room. I've included below a preliminary agenda just so everyone will know that the important outcomes we hope to get from this meeting will be the ideas, suggestions, visions, and wisdom you all bring to the effort. If you have already given some thought to ways in which the Smith River below the dam can be enhanced; become more of a community asset; be a generator of recreational opportunities not yet captured; and so forth, we'd love to hear your ideas. If you have plans, a powerpoint presentation, maps, or other conceptual ideas in other formats, please bring them to show. We'll have presentation capabilities for VCR, DVD, CD, and any standard computer format.

We'll also discuss what we know about recreational uses and capabilities of the Smith River and we'll try to identify what we don't know that we need to know. If a study to answer those questions is needed, we'll try to describe what that might entail.

Preliminary Agenda
1:00 PM Welcome and Introductions--Kevin McDaniels
Background on Philpott 216 study justification and process--Ben Lane
Purpose of Todays meeting and expected outcome--Kevin mcDaniels, Bob Munson
Committee Discussion of the Recreational Uses and Potential of the lower Smith River
Identification of existing data and required data to answer questions raised
Scope of work of needed studies
3:30-4:00 PM Adjourn

I hope that this is a good day for all of you and that you will be able to attend or to send someone from your organization to represent you. If you know of other stakeholder groups that you do not see represented on this committee who you

know have a strong interest in this 216 study, please have them contact me so I can invite them to the meeting. I look forward to seeing you on November 5th.
Best regards, Bob Munson
