**FOR IMMEDIATE RELEASE**

## Corps issues permit for Randleman Dam

**WILMINGTON, N.C.** – The U.S. Army Corps of Engineers Wilmington District today issued a permit for the proposed Randleman Dam and Reservoir. The permit was issued to the Piedmont Triad Regional Water Authority (PTRWA), who have proposed a dam two miles upstream from Randleman, in Randolph County. At normal pool elevation of 682 feet above mean sea level, the proposed reservoir would provide an estimated safe yield of 48 million gallons a day for the PTRWA member governments, which include Randolph County and the municipalities of Greensboro, High Point, Jamestown, Archdale, and Randleman. The project includes a buffer area about 200 feet wide around the perimeter of the lake.
