General Permit No. 199200297
Name of Permittee: United States Forest Service and the North Carolina Division of Forest Resources
Effective Date: January 1, ~~2011~~2017
Expiration Date: December 31, ~~2016~~2021

**DEPARTMENT OF THE ARMY
GENERAL (REGIONAL) PERMIT**

A general permit to perform work in or affecting navigable waters of the United States and waters of the United States, upon recommendation of the Chief of Engineers, pursuant to Section 10 of the Rivers and Harbors Act of March 3, 1899 (33 U.S.C. 403), and Section 404 of the Clean Water Act (33 U.S.C. 1344), is hereby modified and renewed by authority of the Secretary of the Army by

District ~~Commander~~Engineer
U.S. Army Engineer District, Wilmington
Corps of Engineers
69 Darlington Avenue
Wilmington, North Carolina 28403- 1343

TO AUTHORIZE THE DISCHARGE OF DREDGED OR FILL MATERIAL WITHIN NON-TIDAL WATERS OF THE UNITED STATES IN THE STATE OF NORTH CAROLINA ASSOCIATED WITH FOREST MANAGEMENT AND WILDFIRE CONTROL AND SUPPRESSION AS FOLLOWS:

WHEN PREFORMED BY THE US FOREST SERVICE OR THE NORTH CAROLINA DIVISION OF FOREST RESOURCES OR WHEN CONDUCTED ON FEDERAL OR STATE OWNED PROPERTY, AUTHORIZED ACTIVITIES INCLUDE:

1. The discharge of dredged or fill materials associated with the discing of soils for maintaining currently serviceable firebreaks and for creating new firebreaks when the new firebreak is recommended by the North Carolina Division of Forest Resources or the United States Forest Service as part of an approved forest management plan.

2. The discharge of dredged or fill material associated with activities conducted for the purpose of training forest fire equipment operators.
3. The discharge of dredged or fill material associated with continuing ongoing, site-specific, wildlife management activities, not exempted by 33 CFR 323.4, where discing and/or other discharges are used to manipulate habitat and feeding areas for native species of fauna and flora.

OTHER AUTHORIZED ACTIVITIES INCLUDE:

4. The discharge of dredged or fill materials associated with the use of a fire plow for the purpose of wild-fire control during emergency wild-fire fighting situations.

Special Conditions.

a. Activities conducted under the authorization of this general permit shall in no way promote or facilitate drainage of any area of waters of the United States.

b. The responsible agency must receive written concurrence from the Wilmington District Corps of Engineers prior to conducting training activities on privately owned properties, that the proposed training is necessary and cannot practicably be performed on Federally or State owned property*. This concurrence may be obtained by submitting the following information to the appropriate Corps Regulatory Field Office:

1. Name, address and telephone number.
2. Location of [proposed](#) work, including waterbody, nearest community and county.
3. Characteristics of work including maps showing proposed training area, training schedule, description of work to be performed and information supporting the need for conducting the activity at the proposed location.

* The responsible agency may request a single concurrence for multiple training activities and/or events on a particular tract.

c. All permittees conducting emergency wild-fire fighting activities under the authority of this general permit shall, within 30 days of completion of the activity, notify the Wilmington District Corps of Engineers and undertake any restoration of preconstruction contours determined by the District Engineer to be necessary and feasible.

d. Should all or part of a proposed development activity be located in an Area of Environmental Concern (AEC) as designated by the North Carolina Coastal Resources Commission, a Coastal Area Management Act (CAMA) permit is required from the

North Carolina Division of Coastal Management before the onset of the proposed activity. Should a Federal activity within any one of North Carolina's twenty coastal counties or which could affect a coastal use or resource in any one of North Carolina's twenty coastal counties be proposed by a Federal agency, a consistency determination pursuant to Subpart "C" of 15 CFR 930 must be prepared and submitted by that Federal agency to the North Carolina Division of Coastal Management before the onset of the proposed activity.

e. Permittees must, for all work not associated with emergency wild-fire fighting, maintain a minimum 100-foot wide vegetated buffer on all streams classified by the North Carolina Wildlife Resources Commission as *Designated Public Mountain Trout Waters* and a 50-foot wide vegetated buffer on all other open water bodies including streams.

General Conditions.

a. Except as authorized by this general permit or any USACE approved modification to this general permit, no excavation, fill or mechanized land-clearing activities shall take place within waters or wetlands, at any time in the construction or maintenance of this project. This permit does not authorize temporary placement or double handling of excavated or fill material within waters or wetlands outside the permitted area. This prohibition applies to all borrow and fill activities connected with this project.

b. Authorization under this general permit does not obviate the need to obtain other federal, state, or local authorizations.

c. All work authorized by this general permit must comply with the terms and conditions of the applicable Clean Water Act Section 401 Water Quality Certification for this general permit issued by the North Carolina Division of Water [QualityResources](#).

d. The permittee shall employ all sedimentation and erosion control measures considered by the Corps to be necessary and appropriate to prevent an increase in sedimentation or turbidity within waters and wetlands outside the permit area. This shall include, but is not limited to, the immediate installation of silt fencing or similar appropriate devices around all areas subject to soil disturbance or the movement of earthen fill, and the immediate stabilization of all disturbed areas.

e. The activities authorized by this general permit must not interfere with the public's right to free navigation on all navigable waters of the United States. No attempt will be made by the permittee to prevent the full and free use by the public of all navigable waters at or adjacent to the authorized work for a reason other than safety.

f. The permittee understands and agrees that, if future operations by the United States require the removal, relocation, or other alteration, of the structure or work herein

authorized, or if, in the opinion of the Secretary of the Army or his authorized representative, said structure or work shall cause unreasonable obstruction to the free navigation of the navigable waters, the permittee will be required, upon due notice from the Corps of Engineers, to remove, relocate, or alter the structural work or obstructions caused thereby, without expense to the United States. No claim shall be made against the United States on account of any such removal or alteration.

g. The permittee, upon receipt of a notice of revocation of this permit or upon its expiration before completion of the work will, without expense to the United States and in such time and manner as the Secretary of the Army or his authorized representative may direct, restore the affected water of the United States to its former conditions.

h. [This General Permit does not authorize any activity that would conflict with a federal project's congressionally authorized purposes, established limitations or restrictions, or limit an agency's ability to conduct necessary operation and maintenance functions. Per Section 14 of the Rivers and Harbors Act of 1899, as amended \(33 U.S.C. 408\), no project that has the potential to take possession of or make use of for any purpose, or build upon, alter, deface, destroy, move, injure, or obstruct a federally constructed work or project, including, but not limited to, levees, dams, jettys, navigation channels, borrow areas, dredged material disposal sites, flood control projects, etc., shall be permitted unless the project has been reviewed and approved by the appropriate Corps approval authority. The permittee must submit the information described in Special Condition "b" to the Corps and obtain approval from the Corps prior to the initiation of any activity that has the potential to modify or conflict with a federally authorized project.](#)

g.—[The permittee shall obtain a Consent to Cross Government Easement from the Wilmington District's Land Use Coordinator prior to any crossing of the Corps easement and/or prior to commencing construction of any structures, authorized dredging or other work within the right-of-way of, or in proximity to, a federally designated disposal area. The Land Use Coordinator may be contacted at: CESAW-OP-N, 69 Darlington Avenue, Wilmington, North Carolina 28403-1343, email: SAWWeb-NAV@usace.army.mil.](#)

h.i. The permittee will allow the Wilmington District Engineer or his representative to inspect the authorized activity at any time deemed necessary to assure that the activity is being performed or maintained in strict accordance with the Special and General Conditions of this permit.

h.j. This general permit does not grant any property rights or exclusive privileges.

h.k. This permit does not authorize any injury to the property or rights of others.

This general permit does not authorize the interference with any existing or proposed federal project.

~~k.l.~~ In issuing this permit, the Federal Government does not assume any liability for the following:

1. Damages to the permitted project or uses thereof as a result of other permitted or unpermitted activities or from natural causes.
2. Damages to the permitted project or uses thereof as a result of current or future activities undertaken by or on behalf of the United States in the public interest.
3. Damages to persons, property, or to other permitted or unpermitted activities or structures caused by the activity authorized by this permit.
4. Design or construction deficiencies associated with the permitted work.
5. Damage claims associated with any future modification, suspension, or revocation of this permit.

~~l.m.~~ Authorization provided by this general permit may be modified, suspended or revoked in whole or in part if the Wilmington District Engineer, acting for the Secretary of the Army, determines that such action would be in the best public interest. The term of this general permit shall be five (5) years unless subject to modification, suspension or revocation. Any modification, suspension or revocation of this authorization will not be the basis for any claim for damages against the United States Government.

~~o. This general permit does not authorize any activity which the District Engineer determines, after any necessary investigations, would adversely affect:~~

- ~~1. Rivers named in Section 3 of the Wild and Scenic Rivers Act (15 U.S.C. 1273), those proposed for inclusion as provided by Sections 4 and 5 of the Act and wild, scenic and recreational rivers established by state and local entities.~~
- ~~2. Historic, cultural or archeological sites listed in or eligible for inclusion in the National Register of Historic Places as defined in the National Historic Preservation Act of 1966 and its codified regulations, the National Historic Preservation Amendment Acts of 1980 and 1992, the Abandoned Shipwreck Act of 1987 and the Native American Graves Protection and Repatriation Act.~~

~~1. Sites included in or determined eligible for listing in the National Registry of Natural Landmarks.~~

~~This general permit does not authorize any activity that would adversely affect a component of the National Wild and Scenic Rivers System. No activity may occur in a component of the National Wild and Scenic Rivers System, or in a river officially designated by Congress as a "study river" for possible inclusion in the system while the river is in an official study status, unless the appropriate Federal agency with direct management responsibility for such river, has determined in writing that the proposed activity will not adversely affect the Wild and Scenic designation or study status.~~

Information on Wild and Scenic Rivers may be obtained from the appropriate Federal land management agency responsible for the designated Wild and Scenic River or “study river” (e.g., National Park Service, U.S. Forest Service, etc.)

p. In cases where the district engineer determines that the activity may affect properties listed, or eligible for listing, in the National Register of Historic Places and its codified regulations, the National Historic Preservation Amendment Acts of 1980 and 1992, the Abandoned Shipwreck Act of 1987 and the Native American Graves Protection and Repatriation Act, the activity is not authorized, until the requirements of Section 106 of the National Historic Preservation Act (NHPA) have been satisfied. Permittees must submit the information described in Special Condition “b” to the Corps if any properties subject to the above criteria may be affected by the proposed project. The permittee may not begin work until notified by the Corps that the requirements of the NHPA have been satisfied and that the activity is authorized.

q. If you discover any previously unknown historic, cultural or archeological remains and artifacts while accomplishing the activity authorized by this permit, you must immediately notify the district engineer of what you have found, and to the maximum extent practicable, avoid construction activities that may affect the remains and artifacts until the required coordination has been completed. The district engineer will initiate the Federal, tribal and state coordination required to determine if the items or remains warrant a recovery effort or if the site is eligible for listing in the National Register of Historic Places.

~~q. — This general permit does not authorize any activity which will adversely affect any threatened or endangered species or a species proposed for such designation, or their designated critical habitat as identified under the Federal Endangered Species Act (16 U.S.C. 1531). Information on the location of threatened and endangered species and their critical habitat can be obtained directly from the Corps field offices or at the following internet address: . or . Permittees shall notify the Corps if any listed species or designated critical habitat might be affected by the proposed project and, for work not directly associated with emergency wild fire fighting, may not begin work until notified by the Corps that the requirements of the Endangered Species Act have been satisfied and that the activity is authorized.~~

r. No activity is authorized under this general permit which is likely to directly or indirectly jeopardize the continued existence of a threatened or endangered species or a species proposed for such designation, as identified under the Federal Endangered Species Act (ESA), or which will directly or indirectly destroy or adversely modify the critical habitat of such species. No activity is authorized under any NWP which “may affect” a listed species or critical habitat, unless Section 7 consultation addressing the effects of the proposed activity has been completed. Information on threatened and endangered species and their critical habitat can be obtained directly from the Corps field offices, the USFWS field offices or at the following web addresses: <http://www.fws.gov/> or <http://www.fws.gov/ipac/> or <http://www.noaa.gov/fisheries.html>. Permittees must submit the information described in Special Condition “b” to the Corps if any listed

species or designated critical habitat may be affected by the proposed project. Permittees may not begin work until notified by the Corps that the requirements of the ESA have been satisfied and that the activity is authorized.

s. If the permittee discovers or observes any live, damaged, injured or dead individual of an endangered or threatened species during construction, the permittee shall immediately notify the Wilmington District Engineer so that required coordination can be initiated with the U.S. Fish and Wildlife Service and/or National Marine Fisheries Service. If the permittee discovers or observes a damaged or hurt listed endangered or threatened species during construction, the permittee shall immediately notify the District Engineer so that required coordination can be initiated with the U.S. Fish and Wildlife Service and/or National Marine Fisheries Service.

t. Permittees are advised that development activities in or near a floodway may be subject to the National Flood Insurance Program that prohibits any development, including fill, within a floodway that results in any increase in base flood elevations. This general permit does not authorize any activity prohibited by the National Flood Insurance Program.

u. The permittee must install and maintain, at his expense, any signal lights and signals prescribed by the U.S. Coast Guard, through regulations or otherwise, on authorized facilities. For further information, the permittee should contact the U.S. Coast Guard Marine Safety Office at (910) 772-2191.

v. The permittee must maintain any structure or work authorized by this permit in good condition and in conformance with the terms and conditions of this permit. The Permittee is not relieved of this requirement if the Permittee abandons the structure or work. Transfer in fee simple of the work authorized by this permit will automatically transfer this permit to the property's new owner, with all of the rights and responsibilities enumerated herein. The permittee must inform any subsequent owner of all activities undertaken under the authority of this permit and provide the subsequent owner with a copy of the terms and conditions of this permit.

w. At his sole discretion, any time during the processing cycle, the Wilmington District Engineer may determine that this general permit will not be applicable to a specific proposal. In such case, the procedures for processing an individual permit in accordance with 33 CFR 325 will be available.

x. Except as authorized by this general permit or any USACE approved modification to this general permit, all fill material placed in waters or wetlands shall be generated from an upland source and will be clean and free of any pollutants except in trace quantities. Metal products, organic materials (including debris from land clearing activities), or unsightly debris will not be used.

y. Except as authorized by this general permit or any USACE approved modification to this general permit, all excavated material will be disposed of in approved upland disposal areas.

y-z. Activities which have commenced (i.e., are under construction) or are under contract to commence in reliance upon this general permit will remain authorized provided the activity is completed within twelve months of the date of the general permit's expiration, modification, or revocation. Activities completed under the authorization of this general permit that were in effect at the time the activity was completed continue to be authorized by the general permit.

BY AUTHORITY OF THE SECRETARY OF THE ARMY:

~~Jefferson M. Ryseavage~~ Kevin P. Landers Sr.
Colonel, U.S. Army
District Commander
