## Town of Kill Devil Hills Beach Nourishment Project, Dare County, North Carolina (Regulatory)

- **Proposed interim beach nourishment project.**
- **Increasing media, public and political interest.**

CONGRESSIONAL DISTRICT: NC-3

DATE: 8 April 2013

### 1. PURPOSE:

To provide information regarding the status of the town of Kill Devil Hills proposed interim beach nourishment project located in Dare County, NC.

### 2. BACKGROUND:

a. The Kill Devil Hills proposed project would include 2.24 miles of the 4.1 mile north segment of the federally authorized Dare County (Bodie Island) coastal storm damage reduction project. This project would provide temporary erosion relief until the authorized project could be constructed.

b. On September 14, 2011, an interagency scoping meeting was held to discuss the proposed project and to assist the applicant in determining the required types of environmental documentation needed for review.

c. The applicant submitted a scoping document on December 3, 2012, providing biological information and environmental documentation for the proposed project with a request for the Corps to make a determination as to whether the project will require an Environmental Impact Statement or an Environmental Assessment.

### 3. CURRENT STATUS:

The Corps is currently reviewing the information provided and will provide a response to the applicant.
