Reference: DCM02-21 Reissuance of Nationwide Permits
Regional Conditions 2002

Dear Colonel DeLony:

The State of North Carolina has reviewed, pursuant to 15 CFR 930 Subpart C, the Corps of Engineers' proposed Regional Conditions for the 2002 Reissuance of the Nationwide Permits. Based upon our review we have no objections to reissuing these permits with the Regional Conditions as proposed. This action is considered consistent with the North Carolina Coastal Management Program. The applicant must still obtain all other state and local authorizations prior to implementation of his or her project, including a CAMA Permit or consistency concurrence if required.

If you have any questions, please contact Ms. Caroline Bellis, Division of Coastal Management, at (919) 733-2293, extension 249. Thank you for your consideration of the North Carolina Coastal Management Program.

Sincerely,

Donna D. Moffitt
