

**US Army Corps  
Of Engineers**  
Wilmington District

# PUBLIC NOTICE

Corps Action ID #: 198200030

Attached is the modified Regional General Permit 198200030 (GP30) effective January 3, 2008. The proposed changes were announced with a Public Notice on September 26, 2007 in which several comments were received and incorporated into the modification. The modification to this regional general permit reduces the pre-construction notification requirements in an effort to reduce workload in areas that have regulatory overlap. For the reservoirs listed in the table below, only activities that involve new dredging/excavation will require pre-construction notification to the applicable Corps regulatory office as stated in Special Conditions (a-c). We have also added General Condition (V) which requires the applicant to immediately notify the appropriate Corps regulatory office if any previously unknown historic or archaeological remains are uncovered during construction activities. Please be reminded that all other conditions of the GP30 are still applicable and must be met before work can be done in waters and/or wetlands. Also, this modification does not affect the conditions or pre-construction notification requirements to receive the corresponding Clean Water Act Section 401 Water Quality Certification #3693. This certification was recently modified and can be found at [http://h2o.enr.state.nc.us/ncwetlands/rd\\_wetlands\\_certifications.htm](http://h2o.enr.state.nc.us/ncwetlands/rd_wetlands_certifications.htm). This modification also does not preclude applicants from receiving any necessary authorizations from the applicable public utility company that owns/operates the lake where the work is proposed.

| <b>Utility Company / Operator</b> |   |
|-----------------------------------|---|
| <b>Duke Power</b>                 | <b>Progress Energy</b>                    |
| Belews Lake                       | Blewett Falls                             |
| Bear Creek Reservoir              | Lake Tillery                              |
| Cedar Cliff Reservoir             |   |
| Wolf Creek Reservoir              | <b>NC Power (Dominion)</b>                |
| Lake Emory                        | Lake Gaston                               |
| Lake Glenville                    | Roanoke Rapids Lake                       |
| Lake Hickory                      |   |
| Lake James                        | <b>Other (Municipal Owned / Operated)</b> |
| Lake Norman                       | Lake Lure                                 |
| Lake Rhodhiss                     | Hyco Reservoir                            |
